

TAKE IT EASY.

Will it Clear My Hatch?

THERE ARE A FEW TRICKS THAT YOU CAN DO TO ENSURE HATCH CLEARANCE

Figure 1

Hatch Clearance Check List:

CARGO BOXES Have you loosened the clamps from inside the box and shifted them forward or backward for the proper fit? **By doing this you can easily find the sweet spot for your cargo box to sit.** *Figure 1*

OTHER ROOF MOUNTS If your crossbars are adjustable*, move the front bar forward as far as it can go, then adjust to the correct crossbar spread for the product.

***Do not adjust your crossbars if you have Yakima® BaseLine towers or Q towers.**

Adjustable Roof Rack Systems: TimberLine Towers, SkyLine Towers* with Tracks, RidgeLine Towers*, OverHaul HD, OutPost HD, BedRock HD, BedRock, Outdoorsman, and most Factory Roof Racks.

*Some vehicles have a fixed crossbar spread, check yakimatech.com for your vehicle's crossbar capabilities in the measurements section.

Hatch Clearance Measurement:

To find the best fit for your cargo box or fishing rod carrier, use the measurement in figure 2 to find the necessary distance for your product.

Measure Distance

From the front crossbar, measure from the center of that crossbar to the edge of the open trunk hatch. Make sure that you are measuring across the flat surface of the crossbars.

Figure 2

Measure Distance

Product	Minimum Distance	
GrandTour 18	50.75"	129 cm
GrandTour 16	48"	122 cm
SkyBox 16	52"	132.08 cm
SkyBox 12, 18, and 21	57"	144.78 cm
SkyBox Lo	57"	144.78 cm
RocketBox 12	40"	101.6 cm
RocketBox 11 and 14	45"	114.3 cm
TopWater	54"	137.16 cm
DoubleHaul	57"	144.78 cm

CARGO BOX COMPARISON
